Subject: Plan Amendment No. 02-305

Dear Commissioners,

I am sending this email to express my support for Plan Amendment No. 02-305 for trails within the Santa Susana Mountain Trails Master Plan to be connected through easements in perpetuity. Chatsworth has a rich history of horsekeeping and some of the trails have been in use for over 125 years by local residents, past and present. It is important that these trails connect so that the riders can connect to the Santa Clarita and Simi Valley trails and other trails in the area.. If you go to the top of Brown's Canyon you are able to see both Santa Clarita and Simi Valleys. It is not an impossible feat for the equestrians and hikers to accomplish this on the trails.

Chatsworth has a long history of fighting developers to ensure the trail system. The last one was Hidden Creeks and the community has a trail system going around the project.

I would ask you to please consider supporting Plan Amendment No. 02-305.

Thank you

Linda van der Valk
